WE WELCOME YOUR FEEDBACK

As part of our personalised service, we will contact you in the days after the funeral to seek your views on the quality of our service provision and to provide information on the choice of unique memorials here at Clyde Coast and Garnock Valley Crematorium.

In accordance with the Institute of Cemetery and Crematorium Management's 'Guiding Principles for the Charter for the Bereaved' all cremation will take place within 72 hours of the service taking place and where cremation may not be carried out on the same day, the Applicant for Cremation shall be notified and authorisation sought to hold over the deceased for cremation at the earliest possible opportunity.

INSTRUCTION TO FUNERAL DIRECTORS

CONSTRUCTION OF THE COFFIN: The coffin must be made of wood or a wood by-product which, when placed in a cremator and subjected to the accepted cremation process, is easily combustible and which does not emit smoke, give off toxic gas or leave any retardant smears or drips after final combustion. No metal furniture or fittings whatsoever shall be used on a coffin for cremation. No metal of any kind shall be used in the manufacture of such coffin except as is necessary for its safe construction and then only metal of a high ferrous content. Cross pieces must not be attached to the bottom of the coffin. If it is desired to strengthen the bottom of the coffin, wooden strips may be placed lengthways for this purpose. The coffin must not be painted or varnished but may be covered with a suitable cloth. Products manufactured in polyvinyl chloride (PVC), melamine, chlorinated plastic packaging, polyamidoamine-epichlorhydrin based resin (PAA-E), lead or zinc must not be used in the construction of the coffin or its furnishings. The use of polystyrene must be restricted to the coffin nameplate only in which case it must not exceed 90 grams in weight.

LINING OF THE COFFIN: The use of sawdust or cotton wool must be avoided. If circumstances require, suitable sealing material may be used, but no metal, rubber or polyvinyl chloride will be permitted and on no account should pitch or similar substances be used.

SIZE OF THE COFFIN: The external dimensions of a coffin must not exceed 2400mm (94 inches) in length, 1070mm (42 inches) in width and 640mm (25 inches) in depth. Maximum weight permitted is 300Kg (47 stones).

We confirm that the coffin to be presented for cremation at the above stated date and time has been constructed in accordance with these instructions. We further agree to meet ALL requisite fees in relation to the aforementioned cremation. We further agree to reimburse Clyde Coast and Garnock Valley Crematorium all reasonable costs should the cremation be delayed or cancelled due to our failure to provide the necessary documentation as stated above.

FUNERAL DIRECTORS:

TEL. NO:

SIGNED ON BEHALF OF THE ABOVE:

PRINT NAME :

The appropriate Application and Service Details Forms, fully and correctly completed, together with the Certificate of Registration of Death and any additional paperwork as required must be lodged with the Clyde Coast and Garnock Valley Crematorium Office, Dalry, KA24 5LE by 10am two working days prior to the day of cremation. We are happy to receive scanned copies provided the forms include original handwritten signatures or digital signatures. See overleaf instructions for applying a digital signature.

All information provided will be processed in line with current data protection legislation. It is a requirement of the Burial and Cremation (Scotland) Act 2016 that Horizon Cremation retain application information for 50 years from the date of the cremation. Requests for information we hold can be made by contacting us by letter.
